## EXPERIENCE

---

### ITETHIK (Nov 2023 – April 2023) [↗](#)

- Revamped an outdated website with Next.js, increasing loading speed by 40% and enhancing user satisfaction. Contributed to projects in HTML, CSS, and JS, driving further improvements.
- Implemented SEO strategies and crafted technical content to drive increased website traffic and customer engagement, ultimately benefiting company growth.

## PROJECTS

---

### PORT KILLER [↗](#)

A desktop app to efficiently terminate processes on specified ports, simplifying port management for developers and system administrators. Developed using JavaScript, Tauri, and Rust.

### GOYA [↗](#)

A minimalistic Portfolio website builder to reduce the friction of building a portfolio website from scratch. Developed using Next.js, with Firebase to handle user authentication and MongoDB to store persistent data.

### COOL-STUFF [↗](#)

A platform developed using Next.js, enabling Markdown rendering, empowering developers to share cool resources, tools, and more of the things they've created or found online.

## SKILLS

---

- **Languages:** Java, Python, Javascript
- **Frameworks / Libraries:** NextJs, React, Tailwind CSS, Bootstrap
- **Deployment / Tools:** Git, GitHub, Node.js, Express.js, MongoDB, Firebase, Vercel, Linux, Figma

## ACHIEVEMENTS

---

- Secured a spot in the Campus level Hackathon By Global Nature Care Sangathan Group of Institutions (out of 42 Teams). [↗](#)
- Participated in HackByte 2023 Hackathon Hosted by IIIT DM (Certificate: [↗](#))
- Completed Hacktober Fest 2020 (Contributed to multiple OpenSource Projects) [↗](#)

## EDUCATION

---

### GLOBAL ENGINEERING COLLEGE (JBP)

- University : RGPV
- Course : Computer Science (2020–24)
- Current CGPA: 8.38

### KENDRIYA VIDYALAYA O.F.K (JBP)

- Board : CBSE
- Higher Secondary (Year : 2020): 67.2%
- Senior Secondary (Year: 2018): 77.2%

## ACTIVITIES

---

I frequently publish technical content blog posts:
